Interventions Strategies

1. Wellness program:
Encourages students and employees to practice simple, positive lifestyle habits that increase quality of life, productivity, and longevity. Incorporates such aspects as fitness, nutrition, stress management, disease prevention, personal safety, smoking cessation, regular physical exams, health education and awareness, and environmental support.
2. Health and wellness topics included in the curriculum.

Program Effectiveness

The Committee found the DAAPP was effective. This determination was based on the following:

1. The school notified all students and employees of its DAAPP on an annual basis.
2. The school consistently imposed sanctions for violations of its Standards of Conduct in accord with the DFSCA
3. The school's counseling, treatment, and rehabilitation resources were effective in addressing the illegal use of alcohol and drugs by students and employees.

AOD Program Strengths and Weaknesses Analysis

As a part of the review process, the school has conducted a strength & weakness analysis of the DAAPP in order to assist the Committee in assessing effectiveness and to develop informed recommendations for improvement

A. Strengths

1. The school has developed and maintains a drug prevention policy
2. The school provides services and activities to promote a strong drug-free campus environment.
3. Campuses are offering a number of AOD related awareness events.
4. The school tracks the number of drug and alcohol-related legal offenses.
5. Students have ongoing availability of AOD informational resources.
6. Effective awareness program through Drug and Alcohol Awareness and Mental Health Weeks
7. Helpful resources where intervention is readily available when necessary.
8. Rules and regulations are in place for the use of drugs and alcohol.

B. Weaknesses

1. The school failed to develop and implement a comprehensive drug and alcohol abuse prevention program (DAAPP).
2. The school has failed to distribute an accurate and complete DAAPP to all employees and students enrolled in the program in 2016.
3. The institution failed to conduct a biennial review measuring the effectiveness of its DAAPP and assessing the consistency of sanctions imposed for violations of disciplinary standards and codes of conduct.
4. Reporting process lacks a point of contact.
5. Collaboration between the school officials and clinical facility directors.

Conclusions

1. We noted that there were no drug or alcohol related incidents reported to school officials during 2015-2016.
2. Although there were no drug or alcohol related incidents reported, the Committee concludes that the school's counseling, rehabilitation, and treatment resources were put in place to address the concerns of students and employees.
3. The Committee review showed that there is a lack of oversight and coordination of school officials with the clinical facilities to collect substantial information related to alcohol and drug use.
4. We conclude that the school satisfied the annual notification requirements through inclusion of a compliant DAAPP description in its Annual Security Report, but failed to consistently distribute to all students and employees.
5. Homestead Schools is committed to providing its students and employees a drug and alcohol free workplace and learning environment and complying with the Drug-Free Schools and Campuses Regulations of the Drug-Free Schools and Communities Act (DFSCA).
6. The Committee recognizes the importance of an annual assessment and in order to achieve continual improvement and advance the effectiveness of its programs.

Recommendations

As a result of the biennial review process conducted, the DAAPP Review Committee recommend the following actions in order to improve the effectiveness of Homestead Schools DAAPP for students and employees:

1. Establish methods to track and consistently implement the annual distribution of the materials related to alcohol and drug abuse to all students, staff and faculty.
2. Provide documentation evidencing the distribution of the DAAPP.
3. Develop policies and procedures for ensuring that the DAAPP disclosure is actively distributed annually to every student who is currently enrolled for academic credit and all employees.
4. Create a policy to consistently distribute the DAAPP disclosures.
5. The Committee review showed that there is a need to strengthen the oversight and coordination of school officials with the clinical facilities to collect substantial information related to alcohol and drug use.

6. Homestead Schools will develop and implement an action plan to address the identified gaps in its current processes including incorporating the recommendations for improvement during the next reporting.
7. Increase external partnerships with organizations and agencies that specialize in drug and alcohol abuse awareness interventions and programming.
8. Develop a systematic procedure, tools, and repository for tracking and reporting AOD events, interventions, and activities at designated times throughout an academic year.
9. Augment the collaboration of the school and affiliated clinical facilities in tracking, reporting, and assessing the students conduct, behavior and activities related to drug and alcohol abuse.
10. Improve data collecting procedures for the biennial review.
